

## Helpful Hints

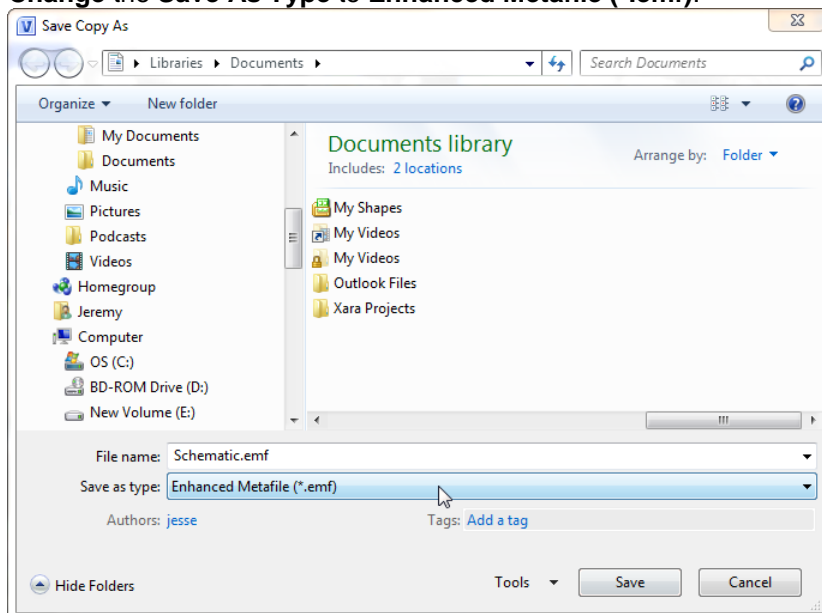

- For best results use the **Enhanced Meta File (EMF)** Image file type when **attaching** a **schematic** to **GN-75 Appendix B**. Other image file formats are also supported including: PNG, BMP, GIF, JPG, TIF, and WMF.

## Procedure

1. Run **MS Visio** and **open** the drawing to be converted.
2. Click on the **File Menu** and choose the **Save As** menu item.

3. Change the **Save As Type** to **Enhanced Metafile (\*.emf)**.

4. Click on **Save** to create the new image.
